Procurement & Spend

DD-PRC-001 · Level 1 · sample Jan–Jun 2024

What is in this folder

A 6-month sample (1,870 supplier invoice lines, Jan–Jun 2024, with their purchase-order lines) of Mizan Manufacturing, a fictional UAE manufacturer: FactInvoiceLine, FactPOLine, DimSupplier, DimItem and DimDate. Amounts in USD. Fully synthetic data.

What the full Data Dare set adds

- 45 months of orders and invoices (Jan 2023 – Sep 2026): spend trends, price variance, late deliveries, lost discounts
- 30 graded questions from easy to very hard, with answer checking on the site
- Discussion with other learners, and the path to a findi360 certificate
- Level 3: three companies, requisitions, goods receipts, payments, fuel cards and supplier bank-detail changes

Try these

1. What was total supplier spend (LineAmount) on invoices dated January–June 2024?
2. What was the total price variance in 2025 – invoice quantity × (invoice unit price – PO unit price)? (needs the full set)
3. How much early-payment discount did Mizan Manufacturing lose in 2025 by paying discount suppliers too late? (needs the full set)
